SolSolution Halo

APPLICATIONS

- Public Spaces
- Office Complex
- Low Light Areas
- Urban Areas
- Public Gardens
- Walkways
- Security Lighting

High performance, vandal resistant, solar-powered LED bollard lighting

SolSolution Halo IK10

The SolSolution Halo vandal resistant, solar powered Bollard light, offers exceptional dusk to dawn lighting, designed for public and commercial locations or anywhere vandalism may be a concern.

SolSolution Halo is a premium product with a lamp housing manufactured from molded UV stabilised, high impact polycarbonate, secured with stainless steel tamper proof security fixings.

The bollard is manufactured from aluminium or optional 304/316 grade stainless steel. Combined with the IK10 impact certification, IP66 dust ingress and waterproof rated safeguards, the product is designed to withstand the environment and deliberate acts of vandalism or theft.

The invisible 360° radar sensor detects movement, increasing the lamps output as you approach and dimming as you pass, ensuring maximum output is available when required while still providing ambient light and retaining battery charge when full output is not necessary.

Mode of Operation

Automatic dusk to dawn lighting. The 360° sensor detects movement, increasing the LED output to 100% as you approach and remains at 100% while movement is detected. The lamp will dim to 30% output (variable) when movement is no longer detected. Fully programmable LED output.

6.3W Solar Panel

IP66 dust ingress and waterproof rated

UV stabilised High Impact Polycarbonate

Premium Directional LED Modules

Stainless Steel Tamper-proof Security Fixings

Anodised Marine Grade Aluminium pole.
Custom Colours Available

Stainless Steel Tamper-proof Security Fixings

Dimensions

Features

- Superior theft and vandal resistant features
- IK10 impact resistant
- IP66 dust ingress and waterproof rated
- Exceptional light output – Dusk until dawn
- Premium LiFeP04 battery
- Programmable microwave motion sensor
- Anodised aluminum stem and reinforced base plate
- Optional 316/304 grade stainless steel stem
- AS/NZS 1158.3.1-PP5 compliant
- Unaffected by mains power outages
- Optional stainless steel tamper proof fixings
- Bolt down or inground stems
- 5 year warranty for faulty workmanship or component failure not influenced by external means

Technical Data

- **Body:** Anodised marine grade aluminum
- **Height:** 950mm
- **Solar Panel Wattage** 6.3W
- **Maximum LED Output** Customisable*
- **Maximum Lumen Output** Customisable*
- **Battery Type** LiFeP04
- **Nominal Battery Voltage** 3.2V
- **Charging Battery Voltage** 3.65V
- **Autonomy** > 7 nights (Setting dependent)
- **Correlated Colour Temp (CCT)** 3000 – (std) 5000k
- **Fixture Size** 280mm dia x 160mm
- **Light Source** Premium directional LED modules
- **Recharge** 5 hours (Setting dependent)
- **Mounting Height** 950mm (Custom Available)
- **Mounting** Post, wall, or column
- **Finish** UV Stabilised High Impact Polycarbonate
- **Warranty Period** 5 years

Benefits

- Public Safety and security
- Long lifetime and reliability
- Minimal glare
- Easy installation, surface mounted
- Minimum installation Costs
- Energy saving
- Low maintenance

Product Specifications

PRODUCT CODE	SolSolution Halo IK10
Wattage (watts)	6.3
LED Output	Customisable
Colour Temperature	3000K (std) 5000K (CCT)
Lumen Output	Customisable
Beam Angle °	360°
Recharge	5 hours - Setting Dependent
Autonomy	>7 nights - Setting Dependent
IP Protection	IP66
IK Protection	IK10
